

Styling Essentials for a Quick Home Update

WHAT EVERY SELLER SHOULD BUY TO
QUICKLY UPDATE THEIR SPACES.

Room-by-Room

Every Day Accessories

A new door mat will make a welcoming first impression. Succulents and textured vases can be used in any room of the home. Don't forget your styling trays for your vignettes. A mirror can work in multiple spaces to add light and depth.

Kitchens are filled with hard lines and surfaces. It's important to bring in warmth and personality. That doesn't mean to clear all the counters! Adding wood elements and soft linens coupled with colorful fruit will do the job. White accessories are best. White equals clean and nobody wants a dirty kitchen!

Styling Essentials for a Quick Home Update

Bedroom Essentials

Bedrooms should be a place to relax and retreat. Paint that picture! White, soft bedding along with crisp pillows are key. Add an accent throw for a pop of color and matching lamps for balance and symmetry.

Create a spa-like feel by adding fresh white, fluffy towels stacked by the tub and succulents throughout. Anchor your counter accents with a small tray. Remove all personal hygiene items from sight.

Coffee Table Vignette

Build emotional connection points through vignettes. Add interest to each space by using groups of 3 or 5 accents. Use trays, plates or books to create eye-catching collections.

A few larger scale items will add tons of personality to your space. Basket plants, poufs, rugs and floor lamps along with 20 x 20 accent pillows have huge impacts. Texture is key in gaining amazing photography for each room!
